**1.**

**Author:** Harwood, David S.

**Title:** **Late Cenozoic tectonism of the Sacramento Valley, California /**  
by David S. Harwood and Edward J. Helley.

**Publisher:** Washington : U.S. G.P.O. ; Denver CO : For sale by the Books and Open-File Reports Section, U.S. Geological Survey, 1987.

**Description:** iii, 46 p. : ill., maps ; 28 cm.

**Series:** U.S. Geological Survey professional paper ; 1359.

**Doc Numbers:** Govt Doc No.: I 19.16:1359

**Notes:** Folded map in pocket.  
Bibliography: p. 41-45.

**Language:** English

**Subjects:** Geology, Stratigraphic--Cenozoic

Geology, Structural--California--Sacramento Valley

**Other entries:** Helley, Edward J.

**Holdings:**

# CONTENTS

	Page		Page
Abstract - - - - -	1	Structural features in the valley fill—Continued	
Introduction - - - - -	1	Structures southwest of the Willows fault—Continued	
Acknowledgments - - - - -	3	Thornton anticline - - - - -	30
Regional setting - - - - -	3	Stockton fault - - - - -	31
Interpretation of basement contours - - - - -	5	Faults in the Sierran foothills - - - - -	32
Structural features in the valley fill - - - - -	6	Cohasset Ridge fault - - - - -	32
Willows fault system - - - - -	7	Magalia fault - - - - -	32
Corning fault - - - - -	7	Cleveland Hills faults - - - - -	33
Northwest extension of Willows fault - - - - -	9	Faults southeast of Oroville - - - - -	33
Southeast extension of Willows fault - - - - -	12	Regional structural analysis - - - - -	33
Structures northeast of the Willows fault - - - - -	16	Structural domains in the Sacramento Valley - - - - -	33
Sutter Buttes - - - - -	16	Sacramento domain - - - - -	34
Chico monocline - - - - -	19	Sutter Buttes domain - - - - -	34
Battle Creek fault zone - - - - -	23	Chico domain - - - - -	35
Inks Creek fold system - - - - -	24	Corning domain - - - - -	35
Salt Creek, Tuscan Springs, and Sevenmile domes - - - - -	26	Dunnigan Hills domain - - - - -	36
Red Bluff fault - - - - -	26	Battle Creek domain - - - - -	36
Faults south of Inskip Hill - - - - -	26	Valley structures related to regional stress patterns - - - - -	36
Structures southwest of the Willows fault - - - - -	26	Conclusions - - - - -	40
Capay Valley-Capay Hills area - - - - -	27	References cited - - - - -	41
Dunnigan Hills anticline and the Zamora fault - - - - -	29	Appendix—Wells with electric well-log data shown in cross sections - - - - -	46
Midland fault - - - - -	29		

# ILLUSTRATIONS

PLATE 1. Structure contour map of Sacramento Valley showing major late Cenozoic structural features and depth to basement - - - - -	Page In pocket
FIGURE 1. Index map of northern California - - - - -	2
2. Outline of geomorphic provinces in California - - - - -	4
3. Cross section showing stratigraphic and structural relations across Willows fault in Willows-Beehive Bend gas field - - - - -	8
4. Map showing epicenters of seismic events near Oroville, Calif., from June 1975 to August 1976 - - - - -	9
5. Seismic-reflection profile showing stratigraphic and structural relations across Corning fault - - - - -	10
6. Map showing structure contours drawn on basement rocks and used to estimate vertical offset of basement across Corning fault - - - - -	11
7-10. Cross sections showing stratigraphic and structural relations across Willows fault:	
7. Near Tisdale gas field - - - - -	13
8. Near Catlett-Nicolaus gas fields - - - - -	14
9. Southeast of Florin - - - - -	15
10. Near Lodi and Galt gas fields - - - - -	17
11. High-altitude aerial photograph showing major structures in northern Sacramento Valley - - - - -	18
12. Structure contour map of area around Sutter Buttes - - - - -	19
13. Composite high-altitude aerial photograph showing Chico monocline - - - - -	20
14. Cross section showing basement offset below Chico monocline - - - - -	21
15. Map and section showing relations between Oroville earthquake aftershock locations and Chico monocline - - - - -	22
16. Photograph showing Battle Creek fault scarp - - - - -	23
17. Cross sections showing stratigraphic and structural relations along Battle Creek fault zone - - - - -	25
18. Composite high-altitude aerial photograph showing topographic expression of Inks Creek fold system and Hooker dome - - - - -	25
19. Aerial photograph showing arcuate fault pattern south of Inskip Hill - - - - -	27
20. Cross section showing stratigraphic and structural relations in Capay Valley, Capay Hills, and Dunnigan Hills - - - - -	28
21. Cross section showing stratigraphic and structural relations across Midland fault zone in Rio Vista gas field - - - - -	30
22. Graph showing rates of displacement on Midland fault zone - - - - -	31
